Dear Provider:

This letter is to inform you that the format for registration to provide continuing education classes to Georgia State Board of Cosmetology master cosmetologists, estheticians, and nail technicians is changed.

The Board will register providers rather than courses. After approved registration, providers may submit notification and outlines of additional courses under the same registration number to the Board.

Our records will indicate that www.safetyservicesonline.com is registered with the Georgia State Board of Cosmetology under the above registration number. **The registration will expire March 31, 2006.**

The Board will assign this number as your provider registration number to be used for the courses you are providing now and all classes that you would request to provide in the future. The Board will accept up to **two (2) hours** CEU credit for each of the elective classes and **three (3) hours** CEU credit for the required Health and Safety curriculum developed by the Georgia Department of Technical and Adult Education, should you choose to offer it.

The Board urges you to advise licensees that the number of CE hours is five (5) for master cosmetologists, estheticians, and nail technicians. **Three of the five required hours must be satisfied with the health and safety course, specially developed by the Department of Technical and Adult Education (DTAE) for the profession.**

Sincerely,

Eleanor Surrency Executive Director
The Georgia State Cosmetology Board
